	78"	800 lbs.	1/2" Steel
GRAPPLE BUCKET	84"	872 lbs.	1/2" Steel
	66"	847 lbs.	1/2" Steel
	72"	890 lbs.	1/2" Steel
	78"	932 lbs.	1/2" Steel
	84"	972 lbs.	1/2" Steel

Bolt-on edge optional.

The extreme duty root grapple has proven itself for many years as an effective and reliable land clearing attachment. The front cross tube helps float the grapple while surface raking, and keeps it from diving too deep while root raking. The well engineered geometry of this grapple and the high quality cylinders give it the best clamping force in the industry. All pivot points are 1-1/4" pins in greasable bushings. This grapple is ready to tackle the toughest of jobs!
