## Introducing the MB15EXS

Stanley Hydraulic Tools is pleased to announce our new 1500 ft lb mounted breaker, the MB15EXS. The MB15EXS adds the power of a 1500 ft lb breaker to the high end of our 6-Series line.

### DESCRIPTION

Designed for backhoes and excavators in the 14,000 - 26,000 lb range, the MB15EXS hits like a heavier breaker with one of the highest blow energy ratings in its class (see CIMA rating).

The MB15EXS is a great option for rental or sales to contractors looking for increased breaker production. At only 1100 pounds, it can be used on both tractor loader backhoes and mini excavators.

The MB15EXS can also be adapted for underwater use with a field installable kit

*"Pound for pound, the MB15EXS is the hardest hitting breaker in its weight class"*
