

MOBILE ROTATING PULVERIZERS

PULVERIZE WITH POWER & SPEED

With the MRP, users can take on diverse primary and secondary demolition projects with one, versatile tool. A short center of gravity and 360-degree rotation gives the MRP optimal maneuverability, while the jaw's design facilitates improved penetration and rapid material downsizing. Dual rotation motors offer superior holding power and durability, and replaceable wear areas encourage longevity and minimized maintenance.

*Weight includes standard excavator mounting bracket. Attachment weight may vary depending on mounting configuration as well as options.

** Reach is measured from the attachment mounting pivot (boom or stick) forward to the end of the jaw.

*** Excavator weight range is a guide only. 2nd member configurations at or near min/max excavator weight and all 3rd member configurations must be preapproved by LaBounty. Quick couplers, short swing machines, long arms all impact carrier size recommendation.

LaBounty reserves the right to improve, update, or change the product specifications, appearance, or functional attributes without notice.
