

# MODEL 1425

## 14" Capacity Horizontal Grinder

Bandit's Model 1425 **leads the way into a new market** for our lineup of horizontal grinders. We've condensed the essence of The Beast® lineup into a **compact and maneuverable** package, that enjoys all the advantages of this machine's larger counterparts. The **downturning mill** and unique saw-style cutterbodies and teeth cut away at material as it enters the machine, so material is **sized correctly on the first pass**. A variety of teeth and screen options are available to help fine tune your end product, making this **the perfect machine** for pallet recyclers, sawmills or small tree service yards.

### ALL-NEW GRINDER FROM BANDIT
