

GLP Series

GRAPPLE BUCKET

PRECISION HANDLING FOR YOUR DEMOLITION WORK

- **LOADING AND DUMPING AT OPTIMIZED ANGLES**
- **THE WIDEST SECTION OF THE GRAPPLE RELEASES THE BLADE**
- **OVERSIZED ROD FOR INTENSIVE WORKLOADS**

ROBUST DESIGN

Compatible with all types of quick hitches

HD Hydraulic cylinder

Optional: Bolted-on blade

This bucket was conceived and designed with two grapples to offer a robust product for your professional needs.

The pronounced curvature of these two grapples allows precision handling for your demolition work.

They are an asset for the transportation of construction materials.
