8029 CTS Compact Excavator

Operating Weight: 6321lb (2867kg) Net Engine Power: 22.1hp (16.5kW)

MINI BUT MIGHTY

NO ONE KNOWS BETTER THAN JCB HOW TO BUILD A ROBUST EXCAVATOR. THE 8029 CTS IS THE PRODUCT OF OUR VAST EXPERIENCE AND KNOW-HOW IN THIS SECTOR. TROUBLE-FREE, SOLID AS A ROCK, BUILT TO LAST. IT MAY BE MINI, BUT IT'S MIGHTY.

The heavy-duty track idler guides and grease tensioners give even greater strength and durability.

High-strength undercarriage

1 The 8029's high-quality 10 in. wide tracks with interlocking links perform in the most arduous applications.

2 High-strength track legs boast three-piece fabrication to maximise rigidity and improve track retention. Chamfered edges reduce spoil retention and make the undercarriage easier to clean. The 8029 open-center track frame design also prevents the build up of spoil.

3 Our new undercarriage features a top mounted roller enhancing track durability.

4 Box section dozer arms provide ultimate strength and robustness for all dozer duties.

Reliable and robust

5 The 8029 features colour coded hydraulic hoses for quick hose identification and boasts the latest industry technology "O-Ring Face Seal" (ORFS) hydraulic fittings providing excellent sealing capabilities.

6 Our strong boom cylinder guard gives maximum protection in all applications.

7 The 8029's new cast tread plate helps to prevent paint damage when accessing the cab.

8 Recessed hoods and doors and a robust rear cast counterweight provide extra damage protection.

Built to last

9 JCB state-of-the-art manufacturing is focused 100% on build quality, reliability and durability to maximise service life and machine uptime.

Our in-house paint process guarantees quality and lasting protection.

PRODUCTIVITY REACHES NEW HEIGHTS

THE OUT-AND-OUT CLASS LEADER WHEN IT COMES TO LIFTING AND STABILITY, COMBINED WITH HIGH TRACTIVE EFFORT, TRACKING SPEED AND PUSHING POWER. THE 8029 CTS TAKES COMPACT EXCAVATOR PRODUCTIVITY TO NEW HEIGHTS.

Higher, further, deeper

1 Our Maxi-lift dozer ram allows extra lift height even when the dipper is at maximum reach. It also gives excellent load hold performance.

2 82% better lift capacity over the tracks (at maximum reach @ ground level) compared to the ZTS due to the machine's realigned centre of gravity and extra 18½ in. tailswing.

Tractive effort and maneuverability

3 The 8029 boasts 12% greater tractive effort than its closest rival with the added benefit of improved spin turn.

3 Auto kickdown motors sense changes in terrain to maximize travel speed and tractive effort. This improves productivity, reduces operator fatigue and increases tracking speed to 3.1 mph for faster cycle times.

4 Light enough to tow behind a 7,700 lb. towing capacity vehicle, the 8029 can be towed wherever you need it.*

**Depending on local regulations/machine specification, trailer and attachment configurations.*

The 8029 boasts new dig-end geometry for superior excavation performance: 8'12" depth, 15'8" reach, 10'7" dump height.

5

Our new hydraulic block valve allows you to travel in a straight line at the same time as selecting excavator functions, increasing productivity.

Power, performance and stability

5 At the heart of the 8029 is a 24.7 hp (gross) T4i engine developing high torque of 21,581 lbf at 1800rpm for ultimate performance and efficiency.

6 A solid, stable work platform improves productivity, versatility and operator confidence.

6 Impressive bucket and dipper tearout performance (5,170 lbf and 3,822 lbf respectively) coupled with fast cycle times resulting in more done, more quickly.

6 Superior boom geometry and bucket rotation gives improved soil retention and the ability to dig right up to the dozer.

Versatility

7 A new handheld tool circuit option means that the 8029 can power a wide range of JCB hydraulic tools; from breakers and drills, to pumps and cutters.

8 26% more auxiliary flow than the competition provides the ultimate in attachment power.

8 The bucket-to-grab changeover option switches oil flow from the bucket cylinder to an additional set of quick-release auxiliary connectors, extending versatility to specialised attachments, such as hanging rotating grapples.

DESIGNED TO MAKE LIFE EASIER

MAKING LIFE EASIER MEANS PUTTING THE OPERATOR FIRST. THE 8029 CTS GIVES PRECISION CONTROL IN A SAFE, COMFORTABLE ENVIRONMENT. SERVICING IS QUICK AND SIMPLE AND THE MACHINE IS PROTECTED AGAINST DAMAGE AND THEFT, REDUCING DOWNTIME.

Precision control

- 1 The 8029 has a two-speed tracking button on the dozer lever that is easy and intuitive to use.
- 2 Our electro-proportional auxiliary thumb control option on the right-hand joystick puts precision control of hydraulic attachments at your fingertips.
- 3 The new hydraulic system results in smooth, controlled, precise and balanced operation of excavator functions via the low effort oil pilot operated servo joysticks.

Comfort and visibility

- 4 Large lockable toolbox provides a clutter free working area.
- 5 Large spacious operator environment with 2 in. extra legroom – compared to ZTS models.
- 6 Foldable tracking pedals keep the floor area clutter free and simplify cab cleaning and access.
- 6 Large glass areas and low hood profile give excellent all-round visibility, including the front right-hand track.

Tinted cab glass as standard, which reflects 30% of the sun's energy, increases operator comfort.

The short, pitched tracks engage every tooth on the sprocket for less vibration and noise, and a far smoother ride.

Maintenance made easy

7 The new hydraulic valve block is easily accessed beneath the side-opening hood. All hoses are color coded for quick and easy identification in the event of accidental damage.

8 The 8029's hinged cast tread plate gives simple battery access – just use a coin or screwdriver to unlock.

9 Pin end greasing makes lubricating the dig end quick and easy.

10 A large 14.8 gallons fuel tank reduces downtime and increases productivity (40% more fuel capacity than ZTS models).

Safe and sound

All 8029 services, including tracking and dozer, are isolated when the control pod is raised.

11 The optional JCB impact protection front screen shields the operator from flying debris when using breakers.

12 Optional boom and cab worklight guards for maximum protection in hazardous applications.

Wide-opening service access panels are supported with gas struts for excellent access to routine checks.

LIVELINK, KNOWLEDGE IS POWER

JCB LIVELINK IS AN INNOVATIVE SOFTWARE SYSTEM THAT LETS YOU MONITOR AND MANAGE YOUR MACHINES REMOTELY – ONLINE, BY EMAIL OR BY MOBILE PHONE. LIVELINK GIVES YOU ACCESS TO A WHOLE HOST OF USEFUL DATA, INCLUDING MACHINE ALERTS, SERVICE DATA AND EVENT HISTORY INFORMATION. ALL YOUR MACHINE INFORMATION IS HANDLED AT A SECURE DATA CENTER FOR YOUR PEACE OF MIND.

Maintenance benefits

JCB LiveLink makes it easy to manage machine maintenance. Accurate hours monitoring and service alerts improve maintenance planning, and real-time location data helps you manage your fleet. You'll also have access to critical machine alerts and maintenance history records.

Productivity and cost benefits

Machine location information can improve fleet efficiency and you may even enjoy reduced insurance costs courtesy of the added security that LiveLink brings.

Note : Please consult your local dealer for LiveLink availability

Security benefits

Keep your machine operating safely with JCB LiveLink. Real-time geofencing alerts tell you when machines move out of predetermined operating zones, and real-time curfew alerts inform you if machines are being used when they're not supposed to be. Real time location information helps you store your machines in the safest places.

VALUE ADDED

JCB'S WORLDWIDE CUSTOMER SUPPORT IS FIRST CLASS. WHATEVER YOU NEED AND WHEREVER YOU ARE, WE'LL BE AVAILABLE QUICKLY AND EFFICIENTLY TO HELP MAKE SURE YOUR MACHINERY IS PERFORMING TO ITS FULL POTENTIAL.

1

1 Our Technical Support Service provides instant access to factory expertise, day or night, while our Finance and Insurance teams are always on hand to provide fast, flexible, competitive quotes.

2 JCB Assetcare offers comprehensive extended warranties and service agreements, as well as service-only or repair and maintenance contracts. Irrespective of what you opt for, our Maintenance teams around the world charge competitive labor rates, and offer non-obligation quotations as well as fast, efficient insurance repair work.

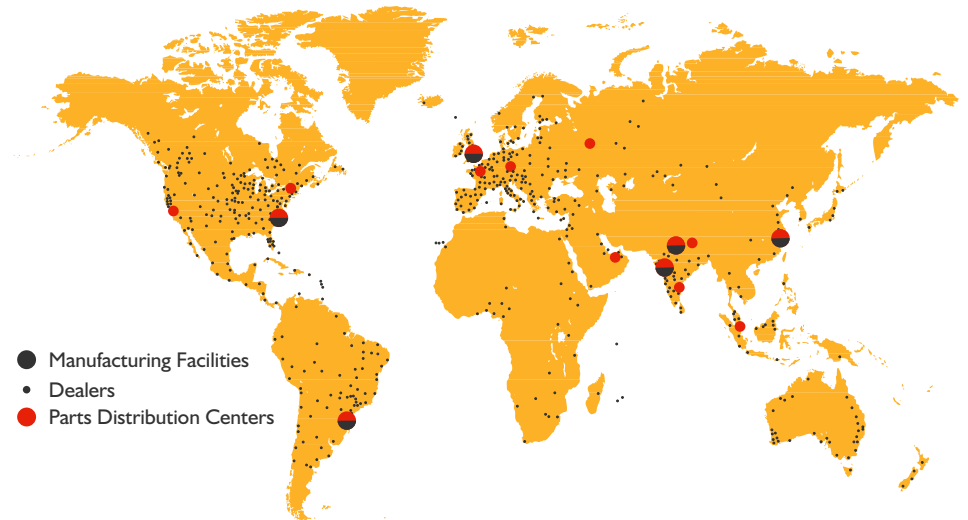

3

3 The global network of JCB Parts Centers is another model of efficiency; with 16 regional bases, we can deliver around 95% of all parts anywhere in the world within 24 hours. Our genuine JCB parts are designed to work in perfect harmony with your machine for optimum performance and productivity.

 Lift capacity front and rear.
Notes:

- Lifting capacities are based on ISO 10567, that is: 75% of minimum tipping load or 87% of hydraulic lift capacity, whichever is the less. Lifting capacities marked* are based on hydraulic capacity.
- Lift capacities assume that the machine is on firm, level ground and equipped with an approved lifting point.
- A bucket must be fitted when lifting, the weight of this bucket must be deducted from the above lift capacities.
- Lift capacities may be limited by local regulations. Please refer to your dealer.
