

DEMOLITION ATTACHMENTS

UNIVERSAL PROCESSORS

THE ULTIMATE MULTI-TASK TOOL

The next generation of award winning universal processors feature the industry's best power-to-weight ratio for uncompromising power, control, and versatility. These universal processors have multiple jaw set options which allows processing of a wide range of materials using a single tool.

Model	Jaw	Weight (With Jaw)*		Jaw Opening		Jaw Depth		Reach**		Min Excavator Weight - 3 rd Member***	
		lbs	kg	in	mm	in	mm	ft	m	lbs	mTons

*Weight includes standard excavator mounting bracket. Attachment weight may vary depending on mounting configuration as well as options.

** Reach is measured from the attachment mounting pivot (boom or stick) forward to the end of the jaw.

*** Excavator weight range is a guide only. 2nd member configurations at or near min/max excavator weight and all 3rd member configurations must be preapproved by LaBounty. Quick couplers, short swing machines, long arms all impact carrier size recommendation.

LaBounty reserves the right to improve, update, or change the product specifications, appearance, or functional attributes without notice.

JAW TYPES

CHOOSING THE RIGHT JAW

CONCRETE CRACKING JAW - CC

CC JAW

Effectively breaks large, oversized concrete structures such as abutments and beams, making it ideal for primary demolition tasks. The entire jaw is constructed with high-grade, abrasion-resistant steel. Swift Lock teeth have been improved to enable quick changeover and reduce downtime, and are interchangeable with other LaBounty attachments. Additionally, it features rebar cutting blades in the throat.

NOTE: The UPX950 Concrete Cracking jaw is designed without Swift Lock Teeth and instead features weld-in replaceable teeth.

UPX 450 WITH CONCRETE CRACKING JAWS

CONCRETE PULVERIZER JAW - CP

CP JAW

Ideal for demolishing concrete and segregating rebar with utmost efficiency. Its Swift Lock teeth have been enhanced to enable swift transitions and minimize unproductive periods, and are interchangeable with other LaBounty attachments. The jaw is constructed from top-notch, abrasion-resistant steel, and features rebar cutting blades located in the throat for added convenience.

NOTE: The UPX950 and UPX750 Concrete Cracking jaw are designed with weld-in replaceable teeth, which eliminates the need for Swift Lock Teeth. However, the UPX450 CC jaw, being the largest, features Swift Lock Teeth.

UPX 950 WITH CONCRETE PULVERIZER JAWS

SHEAR JAW - SH

SH JAW

Capable of severing rebar and structural steel, such as I-beams, H-beams, pipes, and more. Its pivot components have been upgraded for greater longevity, while its patented cutting blade system offers superior performance and lessens the need for maintenance.
