

80 Foot (24.4m) Radial Stacking Conveyor

[Home](#) » [Equipment Lines](#) » [Portable Stacking Conveyors](#) » 80 Foot (24.4m) Radial Stacking Conveyor

Available pit portable or road ready, the TH8036 Radial Stacker is a great complement to our crushers and screening plants and will help boost production day after day.

The TH8036 features a 36" wide belt and is 80' long. It can be operated in 5 different height positions with wheels that pivot to 90 degrees to allow for continuous windrowing. Powered by a 74 HP Deutz Tier IV diesel engine.

Features Overview:

Conveyor

- 36" (914mm) wide belt
- 18" (457mm) lagged drive pulley
- 4" (102mm) sealed for life return idlers
- Wing type tail pulley
- Hydraulic drive

Power System

- Deutz® 74 HP (55kw) Tier IV Final diesel engine
- 50 gallon (189L) fuel tank
- 85 gallon (322L) hydraulic tank
- Hydraulic oil cooler

Structure

- 30" (762mm) deep lattice frame
- 20' (6.10m) top fold head section
- Hydraulic power raise and lower
- Pivot plate
- Telescoping axle
- Swivel wheel undercarriage (with road ready model)
- Site tow tongue and fifth wheel king pin
- Single axle with single 385/65R22.5 20-ply radial tires
- Standard axle configuration does not include air brakes (pit portable only)
